LEVELS IN EXCESS OF 0.10 PPM
Last Updated: October 28, 2008**

CANDY NAME	RECALL DATE	PHOTOGRAPH
BarriChicle Chewing Gum	Link to Recall Notice: March 10, 2008	
Barrilito	Recalled on: August 22, 2007	
Bibi Rainbow Chewing Gum	Recalled on: February 6, 2008	

THE INFORMATION CONTAINED IN THIS DOCUMENT IS SUBJECT TO FREQUENT CHANGE WITHOUT PRIOR NOTICE. The information is effective and accurate only as of the “Last Updated” date at the top of the page, and is only valid until next updated. Enforcement actions taken solely on the basis of information contained in this document may not be valid. Candies may be re-tested at any time and found to contain <0.10 ppm lead, which would then allow those candies to be sold in California.

Samples of these candies were collected from individuals and at the wholesale or retail level. The source of lead contamination is uncertain. The amount of lead in a particular brand or type of candy may vary greatly from sample to sample based on the manufacturing techniques and/or ingredients used, and/or the handling of the candy after its manufacture, including handling by the consumer.

Some manufacturers may have made changes to their production process and/or ingredients so the results reported above may not accurately reflect the lead levels, if any, in these manufacturers products currently on the market. Data presented in this document is for informational purposes only, does not include all candies, and represents lead levels only in the candy samples tested.
